

# Smart, Safe & Compliant

## Take Stock of Your Fuel

Managing fuel is serious business, with regulatory compliance, safety, and the environment at the top of every forecourt's priority list. Regarded as one of the best wetstock management solutions on the market, Titan Cloud is ready to optimise your forecourt safety and performance.

Early detection of stock variances is key, and our innovative technology automatically identifies them in real-time, from leaks in tanks or pipelines, to water ingress or theft. With Titan Cloud Wetstock you can be confident that your obligations are in hand, from delivery to purchase.

## Looking After You & Your Forecourt

The forecourt industry faces a dynamic regulatory landscape.

Our unwavering commitment to innovation guarantees that our technology and service will not only meet but exceed your needs, now and in the future.

### Innovative Technology

Flexible wetstock solutions. Go deviceless with our software-only option or choose Titan Cloud's unique Guardian devices.

### Premier Service

Direct access to UK-based support team with subject matter expertise in Wetstock management.

### Full Regulatory Compliance

We'll help make sure you meet regulatory requirements:

- Health and Safety Authority
- Environment Agency
- Petroleum License
- DSEAR\* Risk Assessment
- APEA and EI Blue Book\*\* guidance

### Real-time Monitoring

A true real-time solution facilitating accurate stock management, variance detection and response.

### Excellent Value

We offer the most cost-effective solution to help you optimize margins, maximize uptime, and reduce administrative time.

### Mitigate Environmental Impact

With very real and growing challenges for our environment, Titan Cloud Wetstock ensures that you minimise any potential adverse impacts on your local communities and the environment in general.

### Titan Cloud Lifetime Warranty for Maximum Uptime

Titan Cloud includes two Guardian devices with every installation - one active and one backup. In the event of a device going down, the backup device can be connected immediately. With no device replacement fees this saves you significant cost and time as well as assurance of continuous monitoring.

# Titan Cloud Wetstock Benefits

Safe, compliant, and optimised wetstock management starts with Titan Cloud. Take a look at our key features, all offered with our wrap around care and service:
